sorry, who's "you"? it wasn't anyone here who laboured to that effect.

Quote:that doesn't stop him from e-attacking whatsoever... if anything it encourages it more (no this is not a threat, its just an observation on human psychology)

well then, give scum like wilo everything they want. don't resist them, you'll make them mad and they'll attack you again and it'll be your fault.

dude, drop this line of reasoning, all it does is blame the victim.

Quote:for the record, I didn't tell him myself, because there's already plenty of other people doing exactly that and I don't have anything extra to add.

hah! you should've said that about the petition, then.

Quote:I rail on here because I do have something extra to add... mainly logic and reason
fucking awful attempts at logic and reason

Quote:which the mass hatred has left many blind to and causing them to commit logical fallacies like guilt by association or "you're either with us or with the terrorists" type of statements.
statements? quit crying about statements. don't read them if they upset you so much.

Quote:Lastly.. moral calibre should only be defined by what we do, not what we don't do. If its defined by what we don't do, then everyone here (and almost everyone on earth) is human scum because we should stop wasting our money on games and instead donate it all to the hungry and saving their lives rather than wasting it on cheap entertainment.

is this another crack at "logic and reason"? if so don't pat yourself on the back too hard, you're pretty dumb if you think you're making a good point here
