Okay i think its clear everyone on here wants the same thing.

Stop attacking each other and put an end to the madness and go back to playing the game we all love.

We have heard the same arguements posted 100 times in this thread and someone new keeps coming in to start it up again.

So i'm coming in to say what has all this fighting accomplished other than you guys trying to be badasses fighting each other senselessly.

Really serves no point other than to give Aircraftkiller a chance to post some comment correcting someones spelling or post a stupid funny picture as always lol

Basically it seems wilo is bad, get rid of him. st0rm is already dead so find another server like n00bstories jelly-server Area54 clanwarserver(spoony) or create a new st0rm server and call it Lightningst0rm.

Maybe Crimson at some point (no pressure) will make n00bstories offically 4.0 because a lot of us do have it i think and with the loss of those who don't we will make up for with the st0rm players looking for their safe no cheat server
