jonwil wrote on Sun, 04 March 2012 07:47whats wrong with AVG?
I use it because its 100% free (assuming you use the free version and not the for-pay version with the extra features I dont need) and does the job.

If I could be bothered, I might dump AVG and install the Microsoft Security Essentials or whatever it is.

I used AVG free myself until I tried Microsoft Security Essentials, and now I use that and haven't turned back. Works like a charm.
