the hate is not mine I have no idea who some of these guys are so how can I hate them. they seem to know me and hate upon the storys/lies out there about me . some hate just as a fact that I will not do as they say or as they think and I dare to speak out or back regardless of the actions taken against me...I AM NO YES MAN..lots of players just keep shut or do as they are told as they either one day want to be a mod or are afraid of a ban...I AM NOT ONE OF THOSE PLAYERS..

2.
I like other servers but if something is not right I will say so or bitch as you call it this from the guy who, upon reading wilo finally being forced to admit that he had been attacking other servers - after denying it for months and trying to frame other people for what he was doing - and his eventual admission was itself a pack of lies - when that happened, you said your level of respect for him went up.

then later when he carried on attacking other servers, and making the most cartoonish threats to people like crimson, despite the fact that his actions would be the death of st0rm (he himself made it clear he'd rather see st0rm die than stop doing the e-attacks), you kept saying the people who needed to modify their behaviour were wilo's victims. you even made weaselish threats yourself.

in a nutshell, get off your high horse. i honestly don't think that the reason you didn't say anything to wilo was because you were scared of him. don't worry, you're probably innocent of that charge; the real reason is worse than that.
