Oh, waaaay down there. Ha.

I moved to this one a long time ago after disabling kirby098 in saome stupid protest over some stupid thing back when my brain stem was still forming higher functions. I think I have another KIRBY-098 as well, but I'll just stick with this one as it ties to my military service which is a fonder memory than post beta renforums battling.

I moved after the FS debacle to the seattle area and then moved again thanks to the aforementioned layoff to Arizona, which I highly recommend by the way.

I still get back to O town on occassion for business but haven't in some time.

I am actually surprised you stayed in FL with the heavy GAME industry prescence in WA.
