EnderGate This game used to be a stress relief for me, now it adds to my stress levels.

Thanks to those that fight the good fight and sorry if I've seemed harsh towards anyone. The only people that need to take offense from something I've posted here are those fuckin' cheaters!

Damn them to hell.

Agreed, I hate cheaters and I damn\* them to hell. Regular long-time players have usually been kicked from games for lag-killing someone or someone n00bs blame them for cheating. As time moves on, I wish that cheaters will be more hated and the cheaters themselves might learn a lesson themselves hopefully.
