i dont get what other possible reason unless something of his is permanently lodged into one of your crevices

how can you respect someone who deliberately crashed several servers continually over months until eventually being called out....and continues to do so, out of pure spite and manic rage.

im pretty sure some of us thought you were joking when you first backed him up, but now its juts ludicrous. Everything you say is astoundingly naive and utterly moronic.

im not sure if you legitimately mean what you or just like getting some attention....even thought its thw worst kind. Im honestly not sure, but I dont know why you like being the sole person backing up someone with as many problems as that guy

looks bad dude

1. if you iknow anything about the me and wilo incident you will know this is not so

2. what he did was wrong and not sure of his reasons but seeing how some people are can see he wanted to hurt them in some way.

the serv he was attacking I am mainly banned so I couldnt give a crap if they crash or not it didnt affect my game.

3. yes maybe I like a little attention ? can I have a hugg pls.

also I know I am not a sole person backing him up . I just happen to be the only one who dares speak back to some of these guys others fear bans like lots on here as this is there life and the only place they have any importance or standing or for some power maybe they have bully issues in real life who knows.

also it has looked bad for me for a while in this game dude once the haters gang up no matter what you say or do they still hate.

so why even try to be nice when you can become a legend and earn names like .
