It's no use, his brain has degraded beyond the point of repair, he's regressed into some kind of a zombie who can still BARELY use a keyboard, foaming from the mouth, his moms probably feeds him through chain bolted door and drinks through a sponge tied to a broom stick, he's not terribly popular at st0rm either, reading some of the garbage he spills onto their forums.

Don't blame the 5 year olds who kick your ass in video games now, that would be a damn shame...
