Quote:the "FPS/frame skip issues" and the freezing issue seem to go together  
i had experimented this since beta 3 and instead of crash, the game slow down to 1 fps, i didnt  
thought that it could be caused by TT since i didnt see reports of something similar wile beta 3  
was out, but whit so many ppl having this issue now, i think the sourse of the problem could have  
come whit some of the changes/fixes of beta 3 and it just got worse with the new update.
