[16/05/09 20:09:45] Damage: 100000.000000

The Guy in your Tree wrote on Thu, 15 March 2012 17:24

You mean that 1 DH biatch occurrence over 6 years of playing on a heavily moded server that contained obelisk guns, agt guns etc that kill vehicles in one hit.

Maybe you missed the part where an obelisk gun doesn't do one hundred thousand damage points. That server's obelisk gun did 300 or 400, I forget which.

Your stories didn't match up back then, you never had that gun. That server shows when anyone picks up an obelisk gun.

Those logs I gave to Stealtheeye at the time to make sure there were no errors.

Imao, how would lag make the damage of a weapon go up or down? lag only affects the time it takes for something to be sent to the server. it doesn't just make magical shit happen
