tildeth is a major oddity in renegade

there was a point in renetime where he was among the best, ss called him the best tank user he'd ever played, he claimed he beat simpee too (but i think that turned out to be bullshit or something, can't really remember)

he did beat me 1v1, but only just and only cos i lagged out of his agt with my tech; it's not like he had the tank edge. and that was way before he started cheating, i think he went downhill from there cos after that he started majorly sucking in tanks. i think he'd gotten too used to using velocity/ROF/rgh/whatever and forgot how to shoot without such assistance
