Quote:Someone tell me ONE thing that is completely secure and cannot be hacked or cracked. ANYTHING.

And if you legitimately give me something, I will either find a way to hack it, crack it myself --- or someone will do it for me.

ANYTHING..EH?

Try to hack these three that come to mind, NASA, FBI, CIA. Come on, shut down the space program in the case of NASA or get priviliged information in the case of FBI or CIA... Problem? Ok try the one below.

Crack this message:
