I thought you were banned from most servers for your triggerbot. What difference would it make if the server was fixed or not if you couldn't play? Its extremely easy to evade a ban its laughable that you couldn't. A 10 year old could figure out how to evade a ban.

Quite hilarious. I'd suggest you get your facts straight, well Brandon can't as he seem's to be unable to use his brain to it's full potential.

Liquid, I still love you.
It's Brandon,

Hey you're the one who can't evade a ban.
Simple steps: VPN, Different mac, different nickname and sometimes even different serial.

Get around server bans and xwis bans. Not even all those steps are required.

Posting via mobile sucks.

Brandon.

Why would I possibly want to be evade bans? Bans which don't actually exist anyway, lol. As I said, hilarious.

Liquid hasn't gotten anything to worry about anyways, Jelly marathon is long and boring. I did my time in rcs-marathon for long enough, aow's is where it's at - when I get the time that is.
