You'd think it would make more sense, but I have Korea represented in the drawings. While the inspiration comes from there it doesn't have any big meaning for me, I liked it that's all. I found Korean quite a boring alphabet really, easy to forget as I have!

The characters are alphabetic in nature as far as I understand. Similar to Korean in that it is an alphabet, just expressed in a different way to English letters.

Yeah I guess it would be nice to have a great reason, but I just don't, it's just how I feel!

I've managed to have some great help! Still looking for a few that aren't easily done
