Time travels to fast these days. september thee 11th will be a day that we will remeber into the future of america. (silence) All we can do now is pray that all the US forces will be able to destroy alkida and stop terrorism so we may live in peace once again. My gym teacher's wife died in that world trade center incident and 3 other people from my comunity. 26 philippinos are also dead from the WTC. Do u think they should make a movie about this?
