he's very hard to work with this joe

what he does is push people and provoke them into defending themselves. when they do defend that's when he hits them right in the face with a nice mute or kick. not everyone on the internet has a thick skin and naturally people defend themselves and get into arguments when insulted. i am sick of this terrible person creating a bad atmosphere in the server and terrorizing others this way.

i have been on the internet long enough to know all kinds of people and how to deal with each kind. sadly not many can say this as most people the joe bans are young and innocent guys just playing the game after a rotten day at school and generally new to the internet. the best way to deal with the likes of this joe is to totally ignore and just focus on the game. it sucks because i like the server. i just play play play and don't bother with the drama joe dishes out. but I can't help the feeling that i am in some sort of dictatorship when playing because you never know that the most innocent thing you might say or even a joke could backfire on you with joe.

crimson, is that the sort of atmosphere you want your players to be in? i am not talking about those regulars who established their names in the server but to the massive numbers of people that populate the server each day in their free time?

btw, this is not my real account. i dare not use my main account. imagine how joe would look at me next time i am in server? to him now i am another silent player (cos i ignore his manipulation) and i like it to be that way. <--- says a lot about the nature of joe doesn't it? the need to use a smurf account to testify against him to avoid repercussions while playing a ten year old game?

Crimson wrote on Thu, 17 May 2012 02:21 It's really a shame that someone as awesome, level-headed, and hard-working as joe has to be subjected to such trolling, and then publicly bashed for doing his job and taking out the trash.

I've gotten the low-down on what you guys pulled on the server and I think you should be ashamed of yourselves for acting like such childish little brats.

Joe doesn't deserved to be bashed here, or anywhere.

if there's any shame in this thread it's your 3 sentence pack of lies quoted above. a disgraceful pack of lies statement like this that reads like it came from Xinhua isn't gonna work this time around.

the ignoring of the charges, lies and coverups are no longer going to silence those who have borne the brunt of this person's unjustified attacks.

the guy PROVOKES people into fighting him. does that not make anyyy sense to you? there's a big difference between getting a "low-down" by reading logs or talking with your mod on teamspeak versus actually playing the game and being the target of his provocation.

i think just like the jarhead issue you will probably lock or delete this thread and ban anyone who complains more. this will not work anymore.

doesn't bother me in the least as i mentioned before i know how to deal with this kind of individual. but not everyone can censor themselves and strip their own humanity away and turn themselves into a robot like i do to play in your server. sad part is i like gameplay conditions in your server. very much.

will you actually listen to the people who are raising a legitimate concern of your mod's behavior or will you post another Xinhua post?

will you actually keep in mind that i have to use my smurf account here to post these comments about your moderator since i fear the retaliation of him when i am ingame next time? or does such mind-numbing tyranny mean nothing to you? raising concerns about someone who should not be let anywhere near the reins of power = bashing to you? I do agree that those who have posted in this thread have used language that is not appropriate (regarding which I will address to them below) but these are based on the behavior of joe ingame and not some fantasy.

i plead you to reconsider.

The likes of you that have never even played with him have can't really comment on the way he moderates you only have a third hand account, so butt out. He's a fine moderator and I've never seen him go over the top at all. Everyone that's "broken the rules" got what they deserved fully.

listen there disgraced fallen angel, why don't you stop posting? nothing you do or say will erase your criminal history nor will you get anywhere near the reins of power anymore. i hope.

like it or not i got a firsthand account of this joe and have seen him maneuver, manipulate, and provoke innocent players to boil them up to a point of rage just to mute and kick them. this issue will only be settled after the truth will be acknowledged by the NS PTB. or they can choose to ban and delete this thread. on behalf of those he abused and demoralized, i will no longer be silent in this issue.

as advice to people who have borne the brunt of tyranny from joe including the topic starter, i suggest to tone down the language, eliminate ad hominem completely, remove all crude pictures and to make your statements and present your arguments using decent to-the-point posts. a passionate, clean, and pure line of reasoning will be required to fight this type of injustice. so please first get started on editing your posts and clean-up, please. if we use standards of decency in this debate, it will be difficult for the NS establishment to ignore you or brand you as "bashers"

bear in mind that this is not something against NS or the outstanding server facilities provided to

us to enjoy our free time but against the internal corruption of one of the mods and false, immoral Xinhua-type lies being announced by NS to cover it up.

in summary, this situation has arisen because:

- NS moderator Joejjj80 has been for years used cruel manipulation to maneuver unaware and unsuspecting players and provoke them into a fight so they can be muted or kicked.

- a calm smooth peaceful server environment is turned to warfare and strife because of the aforementioned actions of NS moderator Joejjj80.

- the situation is no longer bearable as players all across enjoy the NS server and its outstanding facilities, gameplay conditions, gameplay settings, and that such enjoyment is being corrupted by the tyrannical provoking activities of NS moderator Joejjj80.
