Now he got a job but is to busy to open and maintain a server. Lisa still trolls around Renegade.

Actually that's only part of the reason why it was closed down. Ozzy was sick and tired of his admins feuding all the time - no one helped provide donations to the server either. Every few weeks there would be a huge flame fest on the forums involving 3 or more mods. Basically it never worked out, so he closed down the server. I don't blame him tbh.

Actually you're very mistaken. I resigned there long before it closed down, as I couldn't be arsed with the petty bickering + I loathed p0wershot.
