I dont understand why you think I am here to proove a point to starbuzz I am here because you dragged me into here on n00bstories to try and explain to you I dont give a shit what you type here, as ive said before and here again im going to tell you what I think of you no matter who you are, I always have and always will, I do it ingame and in life im an all around asshole to anyone any everyone.

If you think im going to turn over a new leaf for you, your dead wrong, no matter how many people you need to post in front of to try and back you up.

In all reality your just making it easier for me cause now I know im getting under your skin.
