Also reborn is staff over there, he can probably check the thread himself. I recall Lord_Kane using a new feature that hides all of a persons posts just for the hell of it when he banned you. But since he is staff, he can see the actual posts.

Good times.

It was a PM, not a thread. Also, I don't care if he attacks me. I can handle that (as I obviously have throughout this train wreck of a topic), but my family is none of his concern. I don't bring his girlfriend or his family into the discussion because it's none of my business. Resorting to that kind of attack generally means that he's got nothing else to say. Having lost, he thinks it will rile me up. It's not happening.
