Sir Phoenixbigejoe14If you get a chain letter why do you send a hateful letter back? Just check the box next to it and press delete. It's really not that hard.

That was an IM, not e-mail.

Chain letters/IMs are nothing but lame spam and are completely false. It's nothing but a waste of time. You completely deserved everything he said to you and alot more. He should be the one posting "WTF is with spreegem?"

But, He "Retired". :rolleyes:
