Subject: Can't Join My Server
Posted by Sn1per74* on Tue, 12 Jun 2012 04:25:51 GMT

Hey Guys,

I'm running a Dedicated Server with TT 4.0 Beta and Brenbot but when I try to join my dedicated server from Renegade it just says "Negotiating Port With Server..." I tried turning off my firewall but it still didn't let me join. Any ideas?

Thanks
