It is DAMN obvious that some people are cheating on the server, can you just ban these people for the love of god? When someone has 1000 points in the first minute of the game and everyone else has max 10 points hes cheating, its just not possible to be that good, so I dont want to here any of this bullshit requests significant prood, this game is DEAD right now, NO ONE CAN PLAY SO DO SOMETHING. RenGaurd is taking way to long, you have got to do something, because whoever is running a server with cheaters on it is running a server that is a JOKE
