Speaking of "master plans", I remember the time you tried befriending one of the APB clans on MP-Gaming with the goal of starting shit with people over at Bluehell.

I heard stories of how you always used to talk about yourself, and ruining the mods. I see things still haven't changed, and you are still as charming as ever! I can't remember if that was after you got banned from the forums for being so "charming" or not.

So you can't really blame me for thinking you made it up. Especially with that previous happening, and your own admission that you are a shameless asshole towards Wallywood whenever possible in mind.

But hey, it's nice to know that you care so much about Bluehell still! It's just a shame you have to try and fail miserably at getting their attention from over here now.

Never change AircraftKiller, it's fun to watch you. It's like watching some cartoon villian fail time and time again.
