The easy way out is not to continue trolling you. The hard way is to continue finding ways of making you reply again and again. The beautiful thing about it is that it still requires a minimum of effort on my part to have you keep coming back here to whine.

Here's logic you can understand, since anything I've written before is apparently over your head: You don't know me. You don't know anything about me beyond what I choose to project on the Internet. You are being trolled, and you continue to feed into it by replying with these Sherlock Holmes retorts. Here's a clue: If you didn't care, you wouldn't post. If you didn't want to be trolled, you wouldn't keep getting bitch slapped.

I look forward to more of your whining tomorrow!
