explain the "what i deserve" part

because i think you're a cocky German retard in Renegade has what to do with my relationship?

you're too mad to make any sense; stop with the ad hominem emotional garbage and quit dodging anything factual

that's something that's always gotten you down, isn't it? facts

she dumped you; she doesn't want you; even if her and i don't work out she still won't want you; get over it

ask her that yourself if you don't believe me
