I picture you in a tin hat sitting on a street corner babbling about conspiracy's and shit, you should be fucking grateful for the work that the likes of the US do to ensure America's and Europe's safety.

Fucking retard.

Only seeing the good side of the US? Sure, there is probably some stuff done by the US that people can be grateful for. But there is also a lot of shit, caused by the US, that the world definitely isn't grateful for.
