I can take the high-res 3D models I have of the GDI/Nod logos and use them as templates for a pin manufacturer. If we get enough money I (or whoever wants to manage this, I don't care) can place an order to get them custom made for anyone who wants a set.

Anyone interested?

wow pins for a (ten year old dead game) next you guys be wearing the costumes and going to meetings with other ren ppl

trekkies
