Aircraftkiller wrote on Wed, 18 July 2012 18:13EA won't care for several reasons:

They don't care about CafePress: <http://shop.cafepress.com/command-and-conquer>

They allow games/mods like RenegadeX to exist on engines that EA doesn't own or have a controlling stake in.

It isn't for profit, the pins are being sold for the cost it takes to make and ship them.

yeah you could be right as lots of sites seem to offer c&c branded items
