Quote:The only way to truly reap the benefits of the 100 piece price break is if we are either producing the same design or if we only change the color or the plating of the metal.
 If the second design is different from the other design than I am sorry we will have to treat it like two orders. The pricing for 50 pins is $4.95 per pin plus shipping. If you decide to produce both designs for a quantity of 50 pins each we will waive the shipping to help save you some money.
 Please provide me with your other design and give me the details as to what you would like for us to create for you and we will make the final decision as to how we can be more cost effective with your pricing.
 I look forward to hear from you soon.

This is what I got back from them today.
