It's an utter mess, I don't blame anyone for their assumptions, comments or conclusions. I feel like a massive jerk for what's happened, so whether the reasons for the comments are mis-placed or not, it is ultimately justified to be honest.

I feel like a total idiot for what I've done to Shaitan in the past too. While we disagree on alot of things, and I think there are some differences we will never get past, I have admired the fact that you've tried to stay impartial and look beyond blind hate.

True, you managed to get a dig in at me over on my own forms, but I think I more than deserved that.

I'm sure the truth will 'out' eventually (I hope, lol), and when that does, I would like to put some things right in that vein.

For now though, I feel like I do owe you an apology for acting like an asshole to you.
