@ Ack: No clue wtf you are talking about. The post you quoted was just me LOL at you getting muted. That is it. Hurt your feelings did it? Sorry wasn't my intention. But overall I really don't need to be "good" with you. Never have been. Further I thought about your comments and realized, wow that is all you can come up with in 10 years of playing...mod chasing? You weren't even right.

As far as my modding over 10 years, I play in servers and have fun. I have people skills so I am asked to mod. You all have no clue how many times I have said no. Liquid, I don't even remember being an Exodus mod lol. They made me one? I had servers make me a mod and I didn't even know. (I think Xphaze did too) Suck up to be asked? Hardly. Anyone who knows what being a mod / admin is knows you really don't want it. Yeah spending hours on Ren-Archive's server after Cunalinga or Bears screwed it up, Yeah fun fun. Dealing with idiots in the server like DJ, immature s like XcorruptX, cheating mods, etc. Yeah fun fun. I resigned every position I had. Of course no argument after finding out what Wilo was doing st0rm was a bad choice to make a ren home at and I regret it. I liked the mod in the server.

The fact that the KKK+1 clan (MDK, DJK, ACK, G1D) don't like me is a testament to the others that do.
