Catalyst wrote on Fri, 10 August 2012 07:33 You do realise that Teamviewer has a VPN option, if you set your default gateway to that VPN gateway you can spoof the IP address,

having access to the gateway allows access to the serial (obviously remote capabilities by the ID / Pass)

That's a theory i guess.

or reborn is a hacker (:

either way reborn might want to lock down your gear a bit better and keep your TV ID secret ...
generalcamo wrote on Tue, 31 July 2012 10:37 If he had access to his computer, then it would be VERY easy to get his serial with just a little bit of computer knowledge. It's all in the Registry.

The IP, I'm not so sure about...

read above
