TheatrrapMajiin VegetaTheatrrapHow do you get a sig to begin with??
stop spamming the forums with topics titled

SIG
SIG's

you could ahve just asked on the first bloody topic

Well SORRY

I didnt mean to upset you. I thought that if people opened that first one and saw my question they would think what the first guy thought and see his response and leave right then and there. Few people actually read the whole thing if it looks like it is resolved.

soo why did you look back at this one.. if the first reply answered your question...
