how come reborn and 0x91 both use the same intro in their videos and both have the tank headlights that ACK included as a seperate download for fjords?

0x91: [http://www.youtube.com/watch?v=1HCule3z0kg&feature=player\\_embedded](http://www.youtube.com/watch?v=1HCule3z0kg&feature=player_embedded)

reborn: [http://www.youtube.com/watch?v=vbXII068Fjo&feature=player\\_embedded](http://www.youtube.com/watch?v=vbXII068Fjo&feature=player_embedded)

which in both videos only seems to work with the backlight for the harvester, not for any other vehicle?

edit: this video has the same video aspect ratio and similar random music as the 0x91 one:

fjords 0x91 video description: "A hack to demonstrate a working version of a TT hack that shows the enemies mine count, and vehicles.

It also shows the previous radar hack and fog hack working at the same time, too."

reborn apb video description: "A video demonstrating the modification tot he mechanic made by MP-Gaming.COM for APB 2.1"
