I remember the first night of playing Rene after Jamie told me some 6-lockin secrets long time ago. At the time I had a very sucky laptop...it was so sucky I had to stick to vehicles only!

So on Field that same night I get the MLRS and from GDI base entrance, I was 6-locking arty after arty lol and soon the lead arty faggot on Nod started getting annoyed at me. My stomach was hurting like crazy as I was laughing my ass off each time I burst his ride.

Then I somehow kill a sak on the waterfall after all 6 missiles slammed into that bitch! And that dude screamed raged his mouth at me for having ROCKET HAX LMFAO!!! At first I was just amused but then the lead arty faggot also started accusing me of that and that's when I RAGED LOLED MY ASS OFF HAHAHAHAA

oh man lol I will never forget that amazing game and I have those SS too. Gotta dig it up. My most funniest game on Field ever!
