Aim underneath the turret

Alternatively know the exact place under the turret to aim and just hold right mouse down.

[/quote]

I don't understand this, can you explain further, please?

It's hard to explain, the small gap between the turret of a tank and the rest of it. Its why some tanks are easier to 6-lock that others, for example arties.

Will try to post a video at some point (gimme a few days).
