again you confuse myself with yourself charlie ..

I draw people in the haters alone that join just to kill me is crazy . and althou you don't think it charlie I do have a following and there is lots of players on my side. I maybe have more support than you do . the guys will not say this out load or to you as they fear that to support mdk is to be banned or a target by guys such as yourself ...

and to try and turn animoski against me or g1d realy is not needed he knows what I am and how I act . even with the post I made about him and the things said . he still lets me play in his server . that alone wins him points as a person and admin that is willing to let things go and move on unlike you guys who hold on to your hate or just join in with the hate others have .

most ppl know my position on the subject ...I hope jelly die's.. and I will do/say or assist in that happening regardless of what anyone thinks or says.
