MDK and Nurple; you both said you'd stop trolling each other. Why don't you start keeping your word?

I'm pretty sure we had your ass banned there. Back to banland for you. Brenbot failed a little bit there, rectifying that right now.

Xpert wrote on Sat, 15 September 2012 19:16This is just... lol.
No, what is "lol" is the outcome of a certain poll. It's only a small amount of the players' input, but shows how outdated you and your shit is. Your mod got beat by a cobbled together server.
Toggle SpoilerGo with Xpert and server modification that involves the use of CloudyServ, and a veteran system that allows you to rank up to gain access to commands like !weap (random weapon), !char (random char), !tank (random tank) and others. Nothing purchaseable (2 votes [8.00%])

Go with BRenBot and work with what we have (unfinished project as a result of going with Xpert and pretty much leaving out reborn) and work build it up to what the community wants with the use of other coders, IE BillieJoel & WD (Purchasable Stuff) (20 votes [80.00%])

Try to convince Xpert to continue coding for us with what he has, and to adopt portions of our old mod with certain minor tweaks. (3 votes [12.00%])
