I'm sorry, I don't believe I dance to your tune. Make up your mind you dumb woman.

If anyone wants to waste time doing that, they can look for themselves. It was done on public IRCs with a buttload of users, each time.

iRANian wrote on Sun, 23 September 2012 09:55 btw stop spreading lies about me shaitard

and change my oil pls!

or i'll crash your server with radio commands!!!11

Funny story going around about liquid. I heard he lost his job and his girl had to get a second one at Starbux to pay his bills. I don't know if that's true or not, the grapevine is sometimes wrong.

Last warning.
.....

now my little joke comment above earns me a last warning and is forum bs .

but rageing in game and threats to (jump on a plane go to someones house and slit their throat) is fine ?

I now get warnings like last night for th for shooting tib rifle at own team inside wf (me shoot at dj-eye)

crazy if anyone else had said or done what eike has done in game they would be banned asap .

Look at you. You're intentionally posting inflammatory shit to DJ, and you expect me to shut up about it? He isn't doing that to you, he's keeping up his end of the bargain.

I was going to delete that post, but I knew you'd scream RAPE. So, I put that into my status message instead. Heh...you still screamed RAPE.

If you want something done about his "death threats", then call the police. I have already told you that twice.

You are more than welcome to rejoin Jelly's ranks, I'm sure liquitard will love you. I'm also pretty sure I told Animo(weeks ago) how you'd be acting, how you'd end up being banned, posting a shitload of blah here, and migrating to another community. How about you skip the steps and pass 'GO' already?

You're the one that wont stop, when Nurple and DJ have.
