I've messaged Spoony to outlaw this tactic in competitive play .. it's too overpowered. 4.0 will be fixing this issue by making it so that you can no longer purchase both an sbh and chinook at the same time. Sorry to ruin everyone's fun but this bullshit has gone on long enough. Every time I see an empty chinook in GDI's base on Walls_Flying I know my team is fucked. Can't put up with this shit anymore.
