I want to be a blind, ignorant sheep just like you guys. It's funny really. Being the center of, well, everything yet again when I wasn't even around for it.

This is what started it all(as he states). Not once did this little piece of excrement ask for a moderator. Ever if he did, would any of you fuckwits have banned that player? I wouldn't, at most I'd of warned(then kicked if it escalated). Yet, I'm the bad admin.

I'm supposed to look the other way when he does shit? Interestingly enough MDK was doing this very thing to another community member(by the way MDK, that was frapsed as well). When I got on his ass for doing so, he howled like a banshee: "mod raaaaaappppeeee!" Damned if I do, damned if I don't.

Here's a pro-tip for you trolls: shai doesn't give a flying fuck what you see me as, the people I play Renegade with know how I am...and it isn't the way you dipshits portray me.

Jelly may not be perfect, but at least it has nothing to hide

After troll-boy's linking(as usual), I did set certain sections to be viewed by members only. They seem to be the spots where drama gets posted. If you don't like it, tough shit.

Speaking of tyrannical admins hiding posts: why'd you guys delete my own post in the sniper topic R3d made? Oops, caught out.
