And yes, when you first came to area54, I was willing to give you a chance, and you proved everyone who warned me against it right.

At rencorner, Animoski was happy to give you a chance, guess what happened? Oh yeah, you blew it

and as your a mod at the same server you would defend him or them ..

and sure I was a prick to shiton he was the head admin he is the boss I was attacked in game and threats on my life was made in game and he refused to post the logs or take any action against the person. instead I got warning about complaining about it.

my history is not new with shiton he was at the time of storm right at the front of all this same kind of shit.

and when they could not ask servers to ban me or had mods there to help them . shiton came up with the fake MDK cheating video and some servers banned me on that alone.

not at 1:19 they type put MDK as the reson. then they shared this fraps all over.
