i think ridiculing and harassing someone for making a suicide attempt shows the kind of person shaitan really is

BillieJoe67 wrote on Wed, 17 October 2012 16:47 You being a prick to shaitan, unless that's somehow related to Eike as well

shaitan is a prick to a large amount of people, so getting shit back isn't uncalled for in the slightest however, MDK is flawed in his thinking

the server that has thrived the most for the past few years has had him banned for a very long time, and it still seems to be around

TEAM MDK wrote on Wed, 17 October 2012 18:07 after other servers like jelly watched the video and shiton and wilo said it was me they all banned me as a cheat.

true; his head was on the chopping block at Jelly, and that video tipped the scale in the ban's favor

if you haven't realized by now, MDK is mentally ill

if it weren't for the internet, he would probably be in prison for real-life harassment or stalking or something
