EvilWhiteDragon wrote on Sun, 28 October 2012 23:16 That I don't know. That depends on your customisation. You asked how to update TT. I gave the answer.

Ok, so I got at least 50% of my question answered, lol. Thx so far. Worst case scenario : What happens if I update and the bot gives errors or something, I guess then I have no other choice to wait till my coder is back? Are there known issues with customized bots and updating to the latest version of TT?
