dufis791and i dont see ne1 else making renegade themes! or atleast not publically....

For what it's worth, I did make a Renegade AIM theme last year.. it was posted on CNCDen for download. Bear in mind the time passed since then.. I could do a lot better now if I put forth the effort. If you want your theme to look good..

- 1) Learn Photoshop. It is your friend.
 - 2) Consider adding interactivity using HTML.
