best part is rencorner's almost non-existent player base, ultra aow which kinda requires 4.0 and runs fanmaps only gets more players than them quite regularly LOL

-Communism isn't too far from your nature.

-Were you not banned there?

-Have you not made some form of ban appeal in every community out there?

-Can you type like a human please? My eyes are bleeding looking at this drivel you fail to string together coherently.

I feed off of it? You're the one posting for the first time in two months because somebody said something. On the INTERNET.

You waited two months to talk with me? As soon as I post, there you are. So, I can see how much you missed me.

The forum being "locked down" - gee, because it's real hard to register an account to view a forum. I just don't care to do such a thing.

It gives us a little bit more control over halfwits trolling our players. He'd have to register to see most of it.

He should feel special, it's just another notch in his belt from a community that banned him.

Why do I continually put my opinions out here? To counter yours, obviously, as I am doing at the moment.

See the first part. I knew you had it in you!
