Subject: Re: How to get TT working under Wine (Linux)
Posted by Veyrdite on Tue, 11 Dec 2012 09:59:50 GMT

NB: There are still a few problems getting it to work online. I'll post here once I find out how to fix them.

Namely: blank Advanced listings (possibly fixable by "sudo setcap cap_net_raw+epi /usr/bin/wine-preloader")

At the moment a new bug has popped up: '... tt.dll has not loaded, please report this'
