If anyone feels like doing some testing, I just made the following commit;

Revision: 181
Author: danpaul88
Date: 23:51:12, 10 January 2013
Message:
More work on plugin load/unload code, added some IRC based plugin management commends, these are considered alpha quality but feel free to try them out and let me know how well they work (or if they don't work at all!)
