Subject: Anti-cheat block message; invalid ESCO.w3d file found
Posted by Starbuzz on Sat, 23 Feb 2013 21:12:19 GMT

How do I get this file off?

I can't find it anywhere. I think it came from a map my game auto-downloaded today morning as before this I was able to go to Jelly and other servers.

Now I am getting this message when I try to join any server except UltraAOW.

Toggle Spoiler

Thanks

edit: typo
