Also: Who remembers a1g's (A1Game) server? I read that they were found to be a bunch of cheaters running a server later on, not to mention the fact that they didn't like swearing in their games lol

are you serious lol of course they cheated it was fucking obvious. you'd have to be a retard to not figure it out anytime you played in there they all abused \*cheat name removed\*why do you think they intentionally made it 4v12. that sunami3 kid was the fucking worst one, blowing up your tank with his pistol and shit when you weren't paying attention.  
they didn't cheat in the form of \*cheat name removed\*or any cheats like that, they just played on a server hosted in/near their house, so they seemed godlike compared to most normal players  
I actually outplayed them quite a few times, and anyone who played with me can remember that I wasn't that stellar at anything but shooting infantry with tanks
